

## Year 3 Unit 12d Activity Sheet

We can subtract numbers using the expanded column method using partitioning with exchange

Try these subtractions:

$$\begin{array}{r} 57 \\ - 28 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 52 \\ - 18 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 26 \\ - 9 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 44 \\ - 38 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 91 \\ - 59 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 67 \\ - 58 \\ \hline \\ \hline \end{array}$$

Ensure your child sets all the answers out in the expanded method, and starts in the right hand units column as this is key to understanding the process

Now try these subtractions. First set them out in the column method.

$36 - 29$

$61 - 17$

$56 - 18$

$71 - 66$

$75 - 38$

$75 - 39$

$42 - 19$

$84 - 47$
