

## Year 5 Unit 3 Activity Sheet

We can work out sums and differences of numbers with up to three decimal places

Try asking your child to work these out in their head, using known facts to help them. They can always make jottings if that helps, but don't write them down in a formal method:

$$3.5 + 6.8$$

$$4.6 + 4.5$$

$$5.9 + 2.7$$

$$18.2 - 5.1$$

$$22.8 - 16.7$$

$$4.56 + 3.13$$

$$3.25 + 3.31$$

$$0.501 + 0.213$$

$$0.420 + 0.165$$
