

Year 6 Unit 10b Activity Sheet

We can multiply three-digit and four-digit numbers by two-digit numbers using efficient written methods

Set the following multiplications out and complete them

$$373 \times 43$$

$$472 \times 23$$

$$847 \times 64$$

$$485 \times 15$$

$$486 \times 63$$

$$403 \times 37$$

$$908 \times 40$$

$$930 \times 27$$

Now extend this to multiplying a four-digit number by a two-digit number

$$3648 \times 34$$

$$8247 \times 82$$

$$4756 \times 57$$
